As a developer lead, you will be in charge of **leading a squad** and work on a wide variety of projects critical to our customers' needs with opportunities to switch teams and projects as you and our fast-paced business grow and evolve.

We need our team to be versatile, display leadership qualities, and be enthusiastic to take on new problems across the full-stack as we continue to push technology forward. With your technical expertise, you manage individual project priorities, deadlines, and deliverables. You design, develop, test, deploy, maintain, and enhance software solutions.

### Responsibilities

- Design, develop, test, deploy, maintain and improve software
- Lead designs of major software components, systems, and features
- Manage individual projects priorities, deadlines, and deliverables
- Mentor and train other team members on design techniques, and coding standards

### Hiring Process

1. Pre-screening interview
2. Technical Challenge (Codility)
3. English Test (20-25 min)
4. Technical Interview
5. Offer

## REQUISITOS

### Minimum qualifications

- 5+ years of experience with one or more general-purpose programming **languages including Java, C/C++, C#, Objective C, Python, JavaScript or Go.**
- Intermediate - Advanced English (B2 or more)
- Experience working with one or more from the following: **Infrastructure, Machine Learning, Mobile Application Development, Embedded Systems, Front End Development, Security, and Privacy.**
- Experience architecting and developing large scale projects.

## BENEFICIOS

- Work with cutting-edge technologies before they are public.
- Full Time 100% Remote.
- Permanent Contract
- Training, Courses, and Certifications in cutting-edge technologies

## DETALLES

Área: Tecnología, Sistemas y Telecomunicaciones/Tecnologías de la Información

Tipo de trabajo: Full-time

Modo de trabajo: Remoto
